23 December 2009

Dear Sir

Construction of Morisset Street Sewage Pump Station for Queanbeyan City Council

To whom it may concern

Ledonne Constructions

Ledonne Constructions were the construction contractor for Morisset Street Sewage Pump Station and associated rising main in Queanbeyan for Queanbeyan City Council.

The new pump station is located adjacent to a busy street and within a residential area. The project was difficult to construct due to the restricted space available, depth of the pump station and incoming sewers, and difficult geotechnical conditions.

Ledonne had a number of initial setbacks during the construction due to the above conditions, but under trying circumstances, persevered, constructed and successfully completed the facility which the Council (Client) and SKM (Designer & Construction Supervisors) were pleased with the quality of the final product.

I would have no hesitation in recommending Ledonne Constructions to carry out similar work in the future.

Yours faithfully

Garry Fisher

Design Manager
